

# TL20SR

series

---

## Product Segments

- **Ergo Motion**

The TL20SR has a three-stage telescopic outer tube design that has a wide top, narrow bottom square appearance, with an embedded inline actuator (TA20). The TL20SR is ideally suited for ergonomic furniture applications as it comes without a motor housing. It is the perfect choice for design-oriented lifting furniture that needs a clean appearance while simultaneously optimizing space.
